**SURFACE TRANSPORTATION BOARD
OFFICE OF ENVIRONMENTAL ANALYSIS**

FINAL ENVIRONMENTAL ASSESSMENT

ENVIRONMENTAL RECOMMENDATIONS IN DOCKET NO. AB 33 257X

August 23, 2011

ABANDONMENT TYPE

The time for comments on the Environmental Assessment (EA) has expired in this:

() Notice of Exemption (X) Petition for Exemption () Regulated Abandonment

(X) NO NEW COMMENTS WERE RECEIVED

() NEW COMMENTS WERE RECEIVED

OEA served an Environmental Assessment (EA) for this proceeding on July 22, 2011, for public review and comment. In the EA, OEA recommended 3 environmental conditions.

Conclusions

The EA comment period has ended. Accordingly, OEA recommends that the following 3 environmental conditions previously recommended in the EA should be imposed upon any decision granting abandonment authority. The conditions are:

- 1. Union Pacific Railroad Company shall consult with the National Geodetic Survey at least 90 days prior to the beginning of salvage activities that will disturb or destroy any geodetic station markers.**
- 2. Union Pacific Railroad Company shall consult with the Oregon Department of Environmental Quality – Western Region Eugene Office prior to the commencement of salvage activities.**
- 3. Union Pacific Railroad Company shall retain its interest in and take no steps to alter the historic integrity of all historic properties, including sites, buildings, structures, and objects within the project right-of-way (the Area of Potential Effect) that are eligible for listing or listed in the National Register of Historic Places until the Section 106 process of the National Historic Preservation Act, 16 U.S.C. § 470f, has been completed. Union Pacific Railroad Company, shall report back to the Office of Environmental Analysis (OEA) regarding any consultations with the SHPO and the public. Union Pacific Railroad Company, may not file its consummation notice or initiate any salvage activities (including removal of tracks and ties) until the Section 106 process has been completed and the Board has removed this condition.**

If the above 3 environmental conditions are imposed, OEA believes that the proposed action will not significantly affect the quality of the human environment.
